- Compressed Gas Cylinders Larger Than 5 Gallons

## **Transporting**

### **Tips and Techniques:**

- If possible, keep products in their original, tightly-sealed containers.
- Label materials not in their original containers.
- Place leaking containers in tightly-sealed, labeled plastic containers.
- Do not mix materials in the same container.
- Sort products by material type and transport similar products together to avoid potentially dangerous chemical reactions.
- Pack containers upright in a cardboard box or plastic container for transporting.
- Transport in the trunk of your car or bed of your truck.

**Maximum 15 gallons OR 125 pounds per vehicle at this one-day event**
